NOTICE OF ALLOWABILITY

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 23 February 2006 has been entered.

Information Disclosure Statement

The references cited in the Information Disclosure Statement have been considered as indicated on the 1449, a copy of which is attached hereto.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The claims are drawn to an assay device and method for its construction. The device is multi-layered wherein the layers have channels positioned to provide for fluid flow from the upper (attachment) layer to the lower (support) layer. The device further comprises an optically functional layer that detects a change in mass when an analyte binds the uppermost layer. The prior art does not teach or suggest the device comprising the optical layer and top-to-bottom channels.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
